# GRAPLOP™

Knock down the juicy grapes for scoring high points.

- Use the lever to move your 'BOUNCER' — and bounce the ball at the grapes.
  - 1) Try to hit a 'core' grape because then the grapes attached to it will also fall.
  - 2) If you can knock down a 'BIG BUNCH' of grapes you qualify for a high points award.
- You will lose one 'BOUNCER' if hit by falling grapes.
- If you miss the ball on the rebound and it bounces against the bottom line then grapes will drop on you much faster.
